**SG 325 / 30 / 100 A P G**

**BAR SIZE - ABOVE**

In the three-number bar size shown above, the first two numbers refer to the height of the Load Bar - currently, the stock sizes in aluminium are 25, 32, 40, 45, 50 and 60.

The third number refers to the thickness of the Load Bar and will usually be 3mm or 5mm.
